

REQUEST FOR INTERESTED VENDORS

Marlboro County Government has several active projects that will require the use of outside contractors, businesses, or vendors to complete. Some of these activities include:

Delta site rehabilitation – large scale demolition, grounds reclamation, water/sewer/electrical infrastructure, masonry repair, etc.

Solid Waste Recycling Center – paving and grading, building construction, etc.

Recreation facility projects – maintenance and possible construction of new facilities.

Routine public building maintenance items – anything from roof repair to HVAC work.

Marlboro County Government strives to provide all contractors, businesses, or vendors an opportunity to “do business” with the County through a fair and competitive bid or solicitation process.

In support of local business, Marlboro County Council has enacted a “local preference” policy that in some cases allows up to a 10% preference for local vendors in situations where local vendors are competing with other companies from outside of the county.

If you are or your business is interested in being considered for future work for the County, please respond via email to dacarabo@marlborocounty.sc.gov. Include your company name, contact information, any relevant licensing or other information and your general interest in type of project work you desire.
